3	Softkey buttons	 Access functions and services.
4	Navigation bar and <b>Select</b> button	 <p>Scroll through menus, highlight items, and select the highlighted item.</p> <p>When the phone is idle, press <b>Up</b> to access the recent calls list and press <b>Down</b> to access the favourites list.</p>

5	<b>Volume button</b>	 <p>Adjust the speakerphone volume (off hook) and the ringer volume (on hook).</p> <p>When you change the volume, the LED bar lights white to show the volume change.</p>
---	----------------------	--

## Conference Phone Navigation

Use the Navigation bar to scroll through menus. Use the inner **Select** button of the Navigation bar to select menu items.

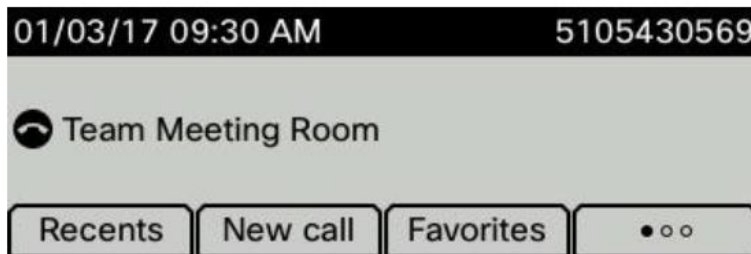

If a menu item has an index number, you can enter the index number with the keypad to select the item.

## Conference Phone Softkeys

You can interact with the features on your phone with the softkeys. Softkeys, located below the screen, give you access to the function displayed on the screen above the softkey. The softkeys change depending on what you are doing at the time. The more softkey functions are available.

## Conference Phone Screen

The phone screen shows information about your phone such as directory number, active call status, and softkeys. The screen is made up of three sections: the header row, the middle section, and the footer row.

1	At the top of the screen is the header row. The header row displays the current date and time, and the phone number.
2	The middle of the phone screen displays the information associated with the calls or line.
3	The bottom row of the screen contains the softkey labels. Each label indicates the action for the softkey button below the screen.

---

**Caution** Do not use any liquids or powders on the phone because they can contaminate the phone components and cause failures.

---

## Adjust the Phone Ringer Volume

If your phone ringer is too loud or too soft when you get an incoming call, you can change the ringer volume. Changes to the ringer volume do not affect the call volume you hear when you are on a call.

### Procedure

---

Press **Volume** up or down to adjust the volume when the phone is not in use.

---

## Adjust the Volume During a Call

If the sound in your conference phone is too loud or too soft, you can change the volume while you are listening to the other person.

The Cisco IP Conference Phone 7832 does not have a handset or support a headset.

### Procedure

---

Press **Volume** up or down to adjust the volume while you are on a call.

---

## Make a Call

Use your phone just like any other phone to make a call.

### Procedure

---

Enter a number and press **Call**.

---

## Redial a Number

You can call the most recently dialed phone number.

### Procedure

---

Press **Redial**.

---

## How to Make a Conference Call

### Procedure

Dial the first number and press **Call**

Press **Conference** and dial the second number

Press **Call** again

Finally press **Conference** and the call will be connected

---

## How to Complete an Assisted Call Transfer

### Procedure

From a call that is not on hold, press **Transfer**

Enter the other person's phone number and press **Call**

When the other person answers the call, press **Transfer** again

---

## How to Complete an Unassisted Call Transfer

### Procedure

From a call that is not on hold, press the **Blindxfer** soft key

Enter the number you wish to transfer to and press **Call**

End the call, and the two calls will be connected

---

## How to Forward all Calls

### Procedure
